## Type Classification Table of Products

[Applicable to Safety Barriers]

Applicant: \_\_\_\_\_ Tel: \_\_\_\_\_

Address: \_\_\_\_\_ Fax: \_\_\_\_\_

Product Information:

1. CCC Code: \_\_\_\_\_

2. Chinese Name: \_\_\_\_\_

3. English Name: \_\_\_\_\_

4. National Standard: \_\_\_\_\_

5. Type classification [\*Types are classified as “metal” or “non-metal” based on the material.

Safety barriers with the same classification shall be regarded as of the same type. Among products of the same type, the one with the most complicated structure shall be regarded as the main type. Among products of the same type, those except the main type shall be regarded as series of type. Products with different colors and graphic patterns may be regarded as the same type and no additional test is required.]

Main type

| Main Type | Model/ Specification | Materials | Structure (including fixing, locking devices) | Color Photos | Remarks |
|-----------|----------------------|-----------|---|--------------|---------|
|           |                      |           |   |              |         |

Series of type

| Series of Type | Model/ Specification | Materials | Structure (including fixing, locking devices) | Color Photos | Remarks |
|----------------|----------------------|-----------|---|--------------|---------|
| 1              |                      |           |   |              |         |
| 2              |                      |           |   |              |         |
| 3              |                      |           |   |              |         |
| 4              |                      |           |   |              |         |
| 5              |                      |           |   |              |         |
