

## 8. Registration of Product Certification (RPC):

- (1) Commodities that have been granted registration may be shipped out of the production premise, or be imported.
- (2) When applying for registration of product certification, the applicant shall submit the type test report, the documents prescribed in Subparagraph 1, Paragraph 1, Article 4 of the Regulations Governing Registration of Product Certification, conformity assessment documents (Declaration of Conformity to Type), and documents prescribed in Clause 6(6) to the inspection authority.
- (3) Registration of product certification review period: 14 working days from application to inspection authority (excluding the time waiting for supporting document or samples); an additional 7 working days after receipt of the samples in case sampling tests are required.
- (4) Applicants granted RPC certificates shall print the Commodity Inspection Mark on their own responsibility. The Commodity Inspection Mark consists of a diagram  and an identification number (a letter "R" and a designated code). The identification number shall be proximately below or to the right of the diagram.

Example:

R means Registration of Product Certification

00000 shall be the code designated by the inspection authority to the applicant

- (5) If there are changes to the scope of the products listed in the RPC certificate (e.g. changes to the main type or series of type, inspection standards or inspection items), unless the changes do not affect the applicable maximum weight, number of wheel assemblies, passenger capacity, number of contact points between the handlebars and the body, the applicant shall obtain a new type test report from the testing laboratory that issued the original report and apply for a replacement certificate to the inspection authority.
