

**Implementation Plan (Template) for the
Reward Program for Demonstration of Renewable Energy Installation in
Indigenous Areas**

Instructions for Plan Proposal Preparation

1. Please prepare the plan proposal using A4-sized paper, portrait orientation, left-to-right horizontal writing, and paginate the document. If the provided tables are insufficient in length, please adjust them as necessary. The plan proposal should be printed double-sided, without binding; fastened with a binder clip is sufficient.
2. The content of the plan proposal should at minimum cover all items specified in the plan proposal template, and reference may be made to the instructions contained therein.
3. All information should be consistent throughout the document and should be compiled or filled in truthfully.
4. Any supplementary or supporting documents should be numbered and appended to the end of the plan proposal.

Table of Contents

Page

I. Plan Objectives	
II. Work Content	
III. Method of Fund Utilization	
IV. Implementation Schedule	

I. Plan Objectives

(Briefly state the objectives for applying to this program.)

II. Overview of Work Content

(Should include installation site, installation type, capacity scale, estimated installation cost per kilowatt, a detailed estimate of related equipment costs, and operation and maintenance plan.)

(If different from the Demonstration Project, reasons and a comparison table of amendments shall be provided. In addition, supplementary information regarding the site survey for renewable energy power generation equipment installation, and the design of the commercial development model or the self-use operation model shall be provided.)

III. Method of Fund Utilization

(Should specify the budget for renewable energy power generation equipment, the amount of reward funds to be applied for, and self-raised funds)

IV. Implementation Schedule

(Should specify the checkpoints for review, the work items to be completed, and the estimated timeline for each item.)
