

Commodity Type Classification Form

[Applicable to Children's High Chair]

Applicant: _____

Tel: _____ Fax: _____

Commodity Information:

I. C.C.C. Code: _____

II. Chinese Name: _____

III. English Name: _____

IV. National Standards: _____

V. Acceptance Body for Type Testing: _____

VI. Type classification [The commodity is classified into two categories: those with a folding mechanism and those without a folding mechanism. Among commodities of the same type, the commodity with the most complicated construction, such as having the greatest number of castors and an adjustable backrest, shall be designated as the main type. Commodities of the same type with other constructions than the main type shall be designated as series types. Differences in color and pattern may be regarded as the same type.]

Main type

Main Type	Model No.	Construction (such as the number of castors and backrest adjustability)	Remarks (additional functions)

Series type

Series Type Item No.	Model No.	Construction (such as the number of castors and backrest adjustability)	Remarks (additional functions)
1			
2			
3			
4			
5			
6			
7			

Notes: For multifunctional composite products (e.g., reclined cradles, chair-mounted seat, children's chairs and stools, and infant swing), specify the additional functions in the Remarks column.

Document Checklist for Application for a Type-Test Report

- ☐ Commodity type classification form for children's high chair.
- ☐ Color photos of the children's high chair (4x6 inch or larger-sized photos showing the front, rear and side views of the product).
- ☐ Samples of Chinese labels.
- ☐ User instructions.
- ☐ Product information (please provide details as an attachment).
 - ☐ Imported ☐ Domestically manufactured
 - ☐ Description of commissioned manufacturing or manufacturer's agent:
 - ☐ Product structure diagram and parts lists (including specifications, materials, and photos of each component):
 - ☐ Other descriptions regarding the children's high chairs.
- ☐ Declaration of Validated Materials of children's high chairs.
