Title :	Labeling Criteria for Low Energy Air Guns for Recreation 
Date :	2022.12.06
Legislative :	1.As promulgated by the Ministry of Economic Affairs pursuant to the public notice of August 29, 2017 (Ref. No. Chin Shan 10602418810) 2.As amended by the Ministry of Economic Affairs pursuant to the public notice of December 6, 2022.(Ref. No. Chin Shan 11102434260)

- Content :
1. The Criteria are stipulated pursuant to Article 12 of the Commodity Labeling Act.
  2. The term "low energy air gun for recreation" as used in these criteria shall mean a commodity for recreation purposes in the form of a gun with kinetic energy at its discharging end greater than 0.08 Joule but no more than 3 Joules while the kinetic energy is produced by compressed gases, mechanical springs, batteries, or a combination thereof to propel the projectile.  
The low energy air guns for recreation referred to in the preceding paragraph do not include the firearms, as are used in the Act Governing the Control Over Guns, Ammunition, Knives and Weapons.
  3. The label of the low energy air guns commodities shall include the following:
    - (1) Name of the commodity or model number of the commodity
    - (2) Commodities manufactured domestically, the name, address and service telephone number of the manufacturer, contractor or distributor shall be labeled. Imported commodities, the name, address and service telephone number of the importer or distributor and the foreign name of the foreign manufacturer or foreign contractor shall be labeled.
    - (3) Place of origin
    - (4) The diameter of the projectile (in millimeters, mm)
    - (5) The kinetic energy at its discharging end (in Joules, J)
    - (6) The firing range (in meters, m)
    - (7) Instructions for use or precautions.
    - (8) Warning instructions.
  4. The Warning Instructions of the low energy air guns commodities shall include the word "Warning" and the following:
    - (1) Suitable player's age by kinetic energy at the discharging end:
      - (a) Kinetic energy at the discharging end exceeds 0.08 Joule but not reaching 1 Joule: No less than 14 years of age.
      - (b) Kinetic energy at the discharging end ranging from 1 Joule to less than 2 Joules: No less than 16 years of age.
      - (c) Kinetic energy at the discharging end ranging between 2 Joules and 3 Joules: No less than 18 years of age.
    - (2) Misuse may cause severe injuries. When in use, ensure that goggles have been worn properly by the player and all other persons inside the firing range.
    - (3) The product shall not be remodeled or altered for use and metallic projectiles shall not be used.
    - (4) Read the instructions carefully prior to use.
  5. The following shall be marked on the product neatly and clearly in a firm and fixed manner:
    - (1) The particulars which must be contained in the labeling as prescribed in Subparagraph 1, Subparagraph 4 and Subparagraph 5 in Article 3.
    - (2) The suitable player's age as prescribed in Subparagraph 1 in the preceding Article.Other particulars which must be contained in the labeling as prescribed in Article 3 other than Subparagraph 1 through Subparagraph 3 shall be labeled in the product, interior and exterior packaging or user's manual.  
Warning instructions prescribed in the preceding Article shall be legible and the color of characters shall be different from the ground. The font size of "Warning" shall be greater than 5 mm both in length and width.
  6. The Criteria shall take effect on May 18, 2023.
