Legislative :	1. Promulgated on August 16, 2010 2. Amendment of the full text for 26 Articles promulgated on November 14, 2023
Content :	<p>Article 1 These regulations are enacted pursuant to Paragraph 4 of Article 13-1 of the Foreign Trade Act (hereafter referred to as “the Act”).</p> <p>Article 2 The management authority hereto is referred to the Ministry of Economic Affairs; and the executing agency hereto is referred to the International Trade Administration (hereafter referred to as “the TITA”).</p> <p>Article 3 The endangered species of fauna, flora and products thereof, hereto are referred to the species listed in Appendix I, Appendix II, and Appendix III of the endangered species of wild fauna and flora (Hereafter referred to as “Appendix I, Appendix II, and Appendix III”).</p> <p>Article 4 Unless otherwise specified by the management authority, when importing endangered species of wild fauna, flora, and products thereof, importer shall submit a Convention on International Trade in Endangered Species of Wild Fauna and Flora (hereafter referred to as “CITES”) certificate or other certificates relating to importation.</p> <p>Article 5 When importing endangered species of wild fauna, flora, and products thereof, importer shall list the following information of the imported goods in the import declaration: the scientific name, the common name, and the certificate number of the CITES certificate or other permit issued by the exporting country.</p> <p>Article 6 The import of endangered species of wild fauna, flora, and products thereof, shall comply with the CITES certificate or other permits issued by the exporting country. Importer shall submit the CITES certificate or other permits issued by the exporting country, if the certificate or permit contains the fields for the actual quantity of exportation, and signature and stamp, then the exporting country shall list the quantity and display the stamp. When performing verification, the importing customs shall mark down the import declaration number and the item number or those of the relevant documents, and proceeds to submit the original copies of the CITES certificate or other permits to the TITA.</p> <p>Article 7 Exporting Country, prior to issuing the CITES certificates for the endangered species of wild fauna, flora, and products thereof, included in Appendix I; if it requires to obtain a CITES import permit in advance, the importer shall submit the following documents to the TITA: 1. A complete CITES import permit application; 2. Approval documents issued by the central industry competent authority; 3. Other documents as specified.</p> <p>Article 8 The export of the endangered species of wild faunas and products thereof, included in Appendices I</p>

and II shall require a prior grant of the CITES export permit from the TITA.

Exporter applying for the aforementioned CITES export permit, shall submit the following documents:

1. A complete CITES export permit application;
2. Other documents as specified.

Exporter applying for exportation of the endangered species of fauna and its products thereof, in Appendix I and the wild animals and its products thereof, as referred to Article 13-1, paragraph 2 and stipulated by the Wildlife Conservation Law, in addition to complying with the preceding regulations, shall submit the approval documents issued by the central industry competent authority.

Article 9

The re-export of the endangered species of fauna and products thereof, included in Appendices I and

II shall require a prior grant of the CITES re-export permit from the TITA.

Exporter applying for the aforementioned CITES export permit, shall submit the following documents:

1. A complete CITES re-export permit application;
2. Import declaration form or other relevant documents issued by the importing customs;
3. A photocopy of the CITES export permit issued by the exporting country; verified and registered by the importing customs;
4. Other documents as specified.

Exporter applying for re-exportation of the endangered species of fauna and its related product included in Appendix I and of the wild animals and its products thereof, as referred to Article 13-1, paragraph 2 and stipulated by the Wildlife Conservation Law, in addition to complying with the preceding regulations, shall submit the approval documentation issued by the central industry competent authority.

Article 10

The export of the endangered species of flora and products thereof, included in Appendices I and II,

shall require a prior grant of the CITES export permit from the TITA.

Exporter applying for the aforementioned CITES export permit, shall submit the following documents:

1. A complete CITES export permit application;
2. Other documents as specified.

Exporter applying for the endangered species of flora and products thereof, included in Appendix I, in addition to complying with the preceding regulation, shall submit the approval documentation issued by the central industry competent authority.

Article 11

The re-export of the endangered flora and products thereof, included in Appendices I and II, shall require a prior grant of the CITE re-export permit from the TITA.

Exporter applying for the aforementioned CITES re-export permit, shall submit the following documents:

1. A complete CITES re-export permit application;
2. Import declaration form or other relevant documents;
3. A photocopy of the CITES export permit issued by the exporting party, and verified and registered by the importing customs;
4. Other documents as specified.

Exporter applying for the endangered flora and products thereof, included in Appendix I, in addition to complying with the preceding regulation, shall submit the approval documentation issued by the central industry competent authority.

Article 12

The export of the endangered fauna, flora, and products thereof, included in Appendix III, shall require a prior grant of the CITES export permit from the TITA.

Exporter applying for the aforementioned CITES other permit, shall submit the following documents:

1. A complete CITES other permit application;
2. Other documents as specified.

Exporter applying for exportation of the endangered species of fauna and its related product included in Appendix I and of the wild animals and its products thereof, as referred to Article 13-1,

paragraph 2 and stipulated by the Wildlife Conservation Law, in addition to complying with the preceding regulations, shall submit the approval documentation issued by the central industry competent authority.

Article 13

The re-export of the endangered fauna, flora and products thereof, included in Appendices III, shall require a prior grant of the CITE re-export permit from the TITA.

Exporter applying for the aforementioned CITES re-export permit, shall submit the following documents:

1. A complete CITES other permit application;
2. Import declaration form or other relevant documents;
3. A photocopy of the CITES permit issued by the exporting party, and verified and registered by the importing customs;
4. Other documents as specified.

Exporter applying for re-exportation of the endangered species of fauna and its related product included in Appendix III and of the wild animals and its products thereof, as referred to Article 13-1,

paragraph 2 and stipulated by the Wildlife Conservation Law, in addition to complying with the preceding regulations, shall submit the approval documentation issued by the central industry competent authority.

Article 14

The export of the endangered species of fauna, flora, and products thereof, shall be processed in accordance with the provisions of the CITES issued by the TITA or other certificates.

Exporting customs shall mark the actual quantity of exportation on the aforementioned permit and apply signature and seal of the exporting customs agency.

Exporter shall attach the aforementioned certificate, marked with the actual quantity of exportation, signed and sealed by the exporting customs, to the exporting commodities.

Article 15

Exporter when exporting endangered species of fauna, flora, and products thereof, shall submit the following information singly in export declaration form or other relevant documents: the scientific name and the common name of the exporting goods; The permit number issued by the TITA or the number, items, and relevant information of other permits.

If the exporter declares exportation without the export declaration form, exporting customs shall transfer the permit or the photocopy thereof, to the TITA after verification.

Article 16

If exporter lost the permit issued by the TITA, prior to the exportation or during shipping, exporter shall apply to the TITA for de-registration of the permit.

Article 17

If exporter lost the permit issued by the TITA, prior to the exportation and applied for de-registration as the preceding item stipulates, exporter shall submit the following documents to the TITA for application of re-issuance:

1. A complete CITES export permit, re-export permit, or other permit application;
2. Documentary explanation of loss of the permit.

Article 18

If exporter lost the permit issued by the TITA, during the shipping and applied for de-registration as Article 16 stipulates, shall submit the following documents to the TITA for re-issuance:

1. A complete CITES export permit, re-export permit, or other permit application;
2. Documentary explanation of loss of the permit;
3. Export declaration or other relevant documents issued by the exporting customs;
4. Proof of the responsible shipping firms;
5. Other documents as specified.

Article 19

The TITA determines format of the CITES certificate and permit.

Article 20

Application for the CITES permit or other certificates shall be done electronically; the TITA shall

issue a documentary permit after approval. However, in the case of technical difficulties from the TITA system, application can be done documentarily.

Article 21

The CITES certificate and other permits have a validity of no more than six (6) months, counting from the date of issuance, and hold a restriction of one-time export and import. However for certain specific goods, a certificate or permit of shorter validity length can be issued.

Article 22

If any error is found in the Certificate or other permits prior to customs declaration, shall submit the original permit and apply for de-registration and re-issuance. Application of editing is prohibited.

Article 23

The CITES certificate and other permits shall be used within the validity period; extension of the validity period is prohibited.

Article 24

The management authority shall proclaim other provisions related to endangered species of fauna, flora, and products thereof.

Article 25

Export and Import of endangered species of fauna, flora, and products thereof, shall preserve all transaction documents and information related to the import and export, for no less than five (5) years, counting from the release of the exporting/importing goods.

Article 26

These regulations will be in full force and fully effective from the date of announcement.
