Title：	Foreign Specialist Professionals with Specific Expertise in Biotechnology Fields Ch
Date：	2026.01.02
Legislative：	1.Promulgated on January 2. 2026
Content：	According to subparagraph 2 of Article 4 of the Act for the Recruitment and Employment of Foreign Professionals, the term “foreign specialist professionals with specific expertise in biotechnology fields” refers to persons that meet any one of the following conditions: 1. Previously or currently holding a position at a biotechnology company or in a biotechnology field in a foreign state or in the ROC with a most recent monthly salary of at least NT$160,000. 2. Those with professional life science knowledge necessary for key products in the biotechnology industry, such as molecular biology, cell biology, immunology, genomics, or proteomics, or with technologies such as genetic engineering, protein engineering, cell engineering, or tissue engineering, who, in addition to having obtained a doctoral degree or above in related fields at a domestic or foreign university, and have either received an international invention/innovation award or have more than four years of work experience in related fields. 3. Those who have held a professional or cross-disciplinary integrative position in the biotechnology industry and have more than eight years of work experience in related fields. 4. Those who have been certified by the relevant central competent authorities as specialized talent, or who possess transnational experience and knowledge/skills for which there is urgent demand in Taiwan, and who have the potential to contribute to the nation's biotechnology industry.
