Title :	Particular Criteria Governing Designated Testing Laboratories for Electromagnetic Compatibility 
Date :	2026.09.07
Legislative :	1.Adopted and promulgated by the Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs on 1 May 2000. 2.Amended by the Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs on 10 July 2000. 3.Amended by the Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs on 17 May 2002. 4.Amended by the Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs on 16 June 2021. 5.Amended by the Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs on 7 September 2026 per Order No. Jing-Biao-Jian-Zheng-Zi 11530017390.

Content :	1. The Bureau of Standards, Metrology and Inspection (hereinafter referred to as the BSMI) hereby establishes these Criteria to recognize and manage designated testing laboratories for electromagnetic compatibility testing and to ensure their testing competence. 2. These Criteria apply to designated testing laboratories that conduct electromagnetic compatibility tests of commodities subject to inspection. 3. The assessment of designated testing laboratories shall be performed in accordance with the requirements of CNS 17025 or ISO/IEC 17025. Where these Criteria set out special requirements, the assessment shall also be performed in accordance with these Criteria. 4. The report signatory designated by a designated testing laboratory shall be responsible for supervising the test reports signed by the signatory and related activities. Personnel responsible for ensuring technical validity, report signatories and testing personnel of domestic designated testing laboratories shall, beginning on 1 January 2027, participate annually in relevant personnel training courses organized by the BSMI or training organizations registered with the BSMI, pass the examinations and obtain certificates of qualification. However, this requirement shall not apply if neither the BSMI nor any training organization registered with the BSMI organizes any such training courses during the relevant year. 5. A designated testing laboratory shall have appropriate protection facilities to ensure the safety of the testing personnel. 6. A designated testing laboratory shall have the required testing equipment to conduct tests according to the inspection standards or technical criteria for the specific testing category. (see Attachment) 7. Test records shall be retained for at least 8 years. The original test records shall be recorded in a manner that the content is not easy to be altered. Any changes or modifications made to the test records shall be confirmed through an appropriate procedure. 8. A test report shall completely reflect the requirements of the inspection standards or technical criteria against which the test is performed. The contents of the test report and its attachments shall further include the following items: (1) Names and numbers that identify the testing equipment used in the tests; (2) List of emission sources and suppression EMC components; (3) Block circuit diagram; (4) Photographs of product appearance and important internal construction or components; (5) User instructions in Chinese; and (6) Product catalogue. 9. (Deleted)
